

RESUME

AMIT BAJPAI

Lead Cloud & DevOps Engineer
(AWS, GCP & Azure)

Bangalore, India | [LinkedIn](#) | [GitHub](#)
amitbajpai.lko@gmail.com | +919880042746

PROFESSIONAL SUMMARY

Senior Cloud & DevOps Leader with **16+ years of experience** delivering large-scale **cloud transformation, modernization and platform engineering programs** for Fortune-500 and global enterprises. Proven in architecting secure **multi-cloud (AWS, Azure & GCP) platforms**, owning transformation strategy, leading large cross-functional delivery teams, and establishing architectural governance and DevOps quality frameworks. Trusted advisor to C-level stakeholders across BFSI, Healthcare and SaaS domains. Certified Google Cloud Architect, Professional DevOps Engineer and Terraform Associate.

PROFESSIONAL EXPERIENCE

StatusNeo Inc — Principal Consultant

Jul 2024 – Jan 2026

- **Own cloud security and modernization initiatives for enterprise clients including Broadcom and Kenvue**
 - Defined **cloud security baselines, architectural governance frameworks and DevOps operating standards** aligned to enterprise compliance
 - Led large-scale **AWS → GCP migration programs**, improving platform **security posture, resiliency and platform availability**
 - Designed and governed **enterprise-grade GCP architectures** including VPC, Load Balancers, Cloud Armor, IAM, centralized Logging & Monitoring,
 - **Platform Architect for Kenvue Data Science (AI/ML) Platform** supporting large-scale analytics and generative AI workloads
 - **Designed and managed Milvus Vector Database architecture** powering RAG (Retrieval Augmented Generation) pipelines
 - Designed and implemented **RBAC for Milvus** using **Python (PyMilvus)**, automating role creation, user provisioning, privilege grants, and database isolation to enforce secure, scalable access control across environments.
 - Enabled containerized AI deployments on Kubernetes AKS with infrastructure-as-code (Terraform), GitOps patterns and environment promotion strategies
 - Built **CI/CD pipelines for automated RAG workflows**, model pipelines and AI data ingestion using Terraform, Jenkins, Helm chart & ArgoCD
 - Established **observability, security and auto-remediation frameworks** for AI/ML and enterprise platforms
-

66Degrees — Senior Cloud Engineer

Nov 2021 – Jul 2023

- Led **on-prem and AWS → GCP cloud transformation programs** for multiple SaaS clients
- Architected **secure cloud foundations**, VPCs, IAM, Firewall, Cloud Run, Pub/Sub, BigQuery

RESUME

- Built enterprise **Terraform IaC platforms and CI/CD pipelines** using Jenkins & Cloud Build for **JAVA based Project**
- Established **observability frameworks** using Prometheus & Grafana dashboards
- Partnered with client leadership to improve availability, performance, and release governance

Wipro Technologies — Principal Consultant

Oct 2015 – Nov 2021

- Cloud Transformation & DevOps Lead for Philips, Wells Fargo, and Broadcom
- Led DevOps transformation for **Wells Fargo**, managing **Java-based enterprise application** platforms and driving CI/CD modernization across teams
- Established **Google Cloud (GCP) foundation for Philips**, including landing zones, governance, networking, and security baseline
- Built end-to-end automation framework post-foundation using **Service Catalog integrated with Azure DevOps (infrastructure provisioning)** and **Jenkins (application CI/CD pipelines)**
- Owned cloud platform strategy, governance, and large-scale migration execution across multiple programs
- Designed reusable enterprise Terraform modules, catalogs, and solution frameworks for standardized deployments
- Implemented Jenkins multi-branch CI/CD pipelines with integrated security scanning (OWASP, Trivy)
- Led and mentored multi-location DevOps teams delivering mission-critical, highly available platform.

Earlier Roles (2003 – 2015)

Senior/Lead Infrastructure & DevOps roles across HARMAN, I-Admin, Yantriki, Techsila, Micro Clinic, Digital Solutions

- Built enterprise IT platforms, CI/CD ecosystems, Linux & application infrastructure
- Led release engineering, monitoring, security, and infrastructure modernization

Core Skills & Expertise

Cloud & Architecture:

Cloud Transformation Strategy • Platform & Integration Architecture • Multi-Cloud (AWS, Azure, GCP, Alibaba Cloud, Oracle Cloud) • Enterprise Migration & Modernization • System Design | Terraform (IaC) • Automation Scripting (Bash/Shell)

DevOps, SRE & Platform Engineering And Containers & Microservices:

DevOps & SRE Practices • Platform Engineering • CI/CD Pipeline Design • Continuous Integration & Continuous Deployment (CI/CD) • Release Management • Configuration Management | Docker • Kubernetes • Containerization • Microservices Architecture • Helm Charts • Cloud Build • GitOps (ArgoCD)

RESUME

CI/CD & Dev Tools&Observability & Monitoring:

Jenkins • GitHub • GitHub Actions • GitLab CI/CD | Grafana • Dynatrace • OpenTelemetry • Alerting & Incident Management

Cloud Security & DevSecOps:

IAM • VPC • Firewalls • DevSecOps Practices • Vulnerability Scanning (Trivy, OWASP) • Container Security • Secret Management (AWS & GCP) • Open-source Security Tools (Prowler)

Scalability & Reliability, Deployment Strategies And Optimization:

Auto Scaling • Load Balancing • High Availability • Disaster Recovery • Platform Scaling | Blue-Green Deployment • Canary Deployment | Cost Optimization • Performance Tuning

EDUCATION& CERTIFICATIONS

Bachelor of commerce , Lucknow University	1996-1999
Masters of Business Administration (IT Systems Management), All India Management Association	2003-2006

- Google Cloud Professional Architect - Google Associate Cloud Engineer	- Google Cloud Professional DevOps Engineer - Google Cloud Professional Network Engineer	Google Cloud Professional Cloud Security Engineer
ITIL v3	RHCSA	Terraform Associate
